New EZ Flood Renewal Process

In an effort to improve the agent and customer experiences, we have made some big changes to our EZ Flood renewal process.

Effective immediately, we do not require agent and customer signatures on renewal offers. This process should improve retention of your EZ Flood book, and simplify the process for insureds and agents. At NFS Edge, we value feedback from our agents and we thank our partners who made this suggestion.

While we do everything in our power to support the agency force and make flood insurance EZ, we cannot change state requirements. Some state required documents may still be required upon renewal.

If you have any questions or feedback, please call our customer service team at 1-888-281-0684.

EZ Flood Expanding This Summer

While most people are busy planning their summer vacations, leaders at NFS Edge are preparing to release the latest enhancement to EZ Flood. This effort brings our flagship product, EZ Flood, to property owners in higher risk and coastal areas. The enhancement employs accurate risk assessment and a rate structure that incorporates trusted forecasting models for improved underwriting and competitive pricing. Stay tuned for more details on how to grow your flood business with EZ Flood in the coming months.

Regulatory Update: October Changes

On October 1, 2018, FEMA will release new October changes to the NFIP that affect existing flood insurance policies, and allow for mid-term NFIP cancellation when the policyholder has obtained other acceptable flood insurance providing building coverage on the same building.
